EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 16, line 2, "butone" was replace with --butane--.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Chin on 2/3/06.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-13 and 16 are allowed because the process steps used in the prior art differ from those claimed herein. There would have been no motivation for one of ordinary skill in the art to modify the processes of the prior art relating to the reduction of oxo-butan-2-ones by using the claim designated strains at the time the claimed invention was made.

The change in nomenclature in the preliminary amendment of the specification and claims to correct an inadvertent error is proper, since it is based on the structures in the as-filed specification.

It is noted that the microorganism(s) required to practice the claimed invention are currently available from the American Type Culture Collection and/or DSMZ-Deutsche Sammlung von Mikroorganismen und Zellkulturen GmbH (DSMZ).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irene Marx whose telephone number is (571) 272-0919. The examiner can normally be reached on M-F (6:30-3:00).
